MINTON, CLIVE, ROSALIND JESSOP & CHRIS HASSELL. 2007. **Breeding success of Arctic waders in 2006, based on juvenile ratios in Australia in the 2006/2007 Austral summer.** *Stilt 51-52*: 3-6. (165 Dalgety Road, Beaumaris, Vic. 3193, Australia; EM: mintons@ozemail.com.au)

TIUNOV, M. & A.Y. BLOCHIN. 2007. **Results of meeting banding birds on Sakhalin Island.** *Stilt 51-52*: 7-10. (Institute of Biology and Soils Science, Far Eastern Branch of Russian Academy of Sciences, Vladivostok, 690022, Russia; EM: ovsianka@omen.ru)

During the periods of April-May and October-November 1988-1991 and 1999-2006 we carried out observations on the gulfs of northeast coast of Sakhalin Island in the Sea of Okhotsk. Sixty three flagged birds of eight species were observed. Of the 49 waders of six species 15 were banded in Japan, 44 in Australia, one in Taiwan. one in Korea and two remained unresolved. Fourteen ducks of two species were also observed.

MINTON, CLIVE. 2007. **Terminology for recording primary moult in juvenile/first year Waders.** *Stilt 51-52*: 10. (165 Dalgety Road, Beaumaris, Vic. 3193, Australia; EM: mintons@ozemail.com.au)

MINTON, CLIVE. 2007. **Possible effects of hot weather on Wader food supplies.** *Stilt 51-52*: 11-12. (165 Dalgety Road, Beaumaris, Vic. 3193, Australia; EM: mintons@ozemail.com.au)

Details are given of two separate observations which may indicate that food supplies for waders were adversely affected by the extremely hot weather in Victoria during the 2006/07 summer
